VISWAMBHARA EDUCATIONAL SOCIETY

MESSAGE

It gives me an immense pleasure to know that Vaagdevi College of Pharmacy Alumni Association is organizing its 4th Alumni Meet 10th December 2022. I'm also glad to know that a souvenir is being brought out on this occasion.

The name and reputation of any institution is based on its Alumni. Arranging a meet regularly is going to bring an opportunity for the present students to know their seniors and their achievements. I hope that the Alumni also enjoys this meet and will observe the changes happened in the institute.

I wish the Alumni meet a grand success and congratulate all the Alumni and Organizers of the meet.

VISWAMBHARA EDUCATIONAL SOCIETY

MESSAGE

I deem it as a pleasure and honour to say I was keenly interested in starting the Vaagdevi College of Pharmacy Alumni Association in 2010. Since the inception of it several activities have been performed with a motto of strengthening bond between old students and alma mater. The association has been inviting many of the alumni for the interaction with the current students so that it serves a platform for sharing the views and prospects of the profession. We are conducting fourth alumni meet on 10th December 2022. I hope that this meet further rejuvenates our enthusiasm and we expect to share your thoughts and new developments with us. I encourage you to share your stories with us and send us your suggestions and feedback to us, so that together we can build a stronger pharmacy Alumni Association.

I look forward to see you all at our next event !

SAVE GIRL CHILD

The existence of human life on earth is impossible without the equal partition of men and women. They are equally responsible for the survival of human race on earth. They are also liable for development and growth of nation. However the existence of women is more important than men. Because without her we cannot about our existence. So as humans we have to take necessary steps for saving the girl child.

It's a common practice in India to where people about or kill girl child on birth but they should be given equal opportunity to go ahead in life apart from that, the fate of civilization lies in their hand as they are the root of creation.

There is various evil in our society, one of which happens to be the desire to have a boy. In Indian society, everyone wants the ideal mother, sister, wife, and daughter but they never want the girl to be his blood relative. Besides there are other social evils that forces many parents to avoid having the girl child . These other social evils are dowry deaths, female foeticide and others.

Girls have proven themselves in every field than boys. And due their hard work and dedication they have been to space also. They are more talented, obedient and responsible for the family and her life. Besides, all these girls are more loving and caring towards their parents.

By concluding, I say for saving girl child the first step starts with our own home. We should encourage our family members, neighbors and relatives to save them and make people aware of it. We have to say our parents about the schemes that are established for the girl child I.e, Beti padhao and Beti bachao, sukanya samridi yojana etc. parents should be given counseling for educating the girl child. Child marriages and rapes must or should be banned because in minority areas still child marriages are going on upto this date ..

STAGE'S OF LIFE!!

Every stage of life,
We need atleast one person!
When we are children,
We need parents!
When we are growing,
We need teachers!
When we are teenage,
We need friends!
When we are adults,
We need best friends!
When we are grown-up,
We need life partner!
When we are earning,
We need colleagues!
When we are ageing,
We need children!
When we are old,
We need grand children!
Whatever the stage of life, we need a company for the emotions!!
So please give value to the persons who came into your life or you came into their life :)
Everything for a reason, everything for our best be positive and be happy.
Loneliness is the stage of every one's life it will come and go but you are constant in your own life.
Don't feel sorrow, feel joy for what you are having :)
Whether the success or failure takes it as a challenge you are getting in your life to prove yourself better every time.

FATHER: AN UNNOTICED HERO

It's on your shoulders we grow
You love us but don't show
The care of you for us is eternal
Without your presence our life is dull
You are the one who show us the way
For our efforts to not to go in hay
You struggle to make both ends meet
Feed us and sometimes you don't eat
Your preaching's are what we all need
To make a success chain out of bead(s)
Your absence is something I can't imagine
You undoubtedly will be the reason for our win
You are the one on who we lean
The best in earth I've ever seen
You hold a heart of gold
Thoughts of making us bold
You are the one who make us strong
Teaching us all the rights and wrong
You are our pride and shine
Pray that you should be all time fine
One who seeks happiness in us
Other than you who would it does
Just to see us smile
You set a journey of mile
It is you who truly care
Help us decide are our decisions fair
To make us happy you always have a plan
And let me say I'm your biggest fan
Having a father like you is true blessing
Will always pray for your well-being

MAINTAINING POSITIVITY AND MENTAL HEALTH

Maintaining positive attitude and having well balanced mental health plays a vital role to have a successful life. Now a days many teenagers and youngsters are suffering from anxiety, depression and many other mental health disorders. Lack of proper diet, exercise and sleep can be one of the main causes for bad mental health. The other reason can be a highly judgmental and negative society. We see many people around us who start judging children and giving bad reviews and destroying there self esteem. Social isolation, poverty, racism can also be the cause of negativity.

Since the upgrade of technology such as mobile, laptops, online gaming people have stopped going to social gathering, meeting people, and more over children have stopped having physical activities outside the house. Research shows that teenagers who spend more time on social media also feel more isolated.

HOW TO DEVELOP POSITIVITY:

Positive thinking does not mean you stick your head in the sand and neglect any fun conditions in life. Positive thinking means that, more positively and efficiently, you handle unpleasantness. To overcome

- ❖ Checklist for all the abilities and disabilities you have and try to embrace the abilities and work on to improve disabilities.
- ❖ Set challenging goals for yourself.
- ❖ Start having self-care activities
- ❖ Try to have circle who speaks positive words and encourage you and concentrate less on negative things.
- ❖ Having a grateful mindset - stop blaming yourself for the worst experience in your life, instead accept it as good for you and accept that whatever happens is for your betterment.
- ❖ Avoid using social media too much and do not take whatever we see on it seriously ,as Social media is nothing more than an illusion.
- ❖ Have proper diet, sleep and physical exercise.
- ❖ Always look at how far you have come instead of how far you still need to go.
- ❖ Remember the voice you hear the most, is your own. If you hear a negative voice, you will always be in a negative mind set. Our words and thoughts are so powerful and they have direct effect on how you evolve."

Money says earn me,
Calendar says turn me,
Time says plan me,
Future says win me,
But, God simply says,
Work hard and trust me!

Written with a pen,
Memory of bliss!
If you are my friend,
Please answer this!
Are we friends or are we not?
You told me once, but I forgot
So tell me now and tell me true,
So, I can say I am here for you!
Of all friends, I have ever met,
You are the one I won't forget!
And if I die before you do,
I will go to heaven and wait for you!

If you are alone
I will be your shadow,
If you want to cry
I will be your shoulder,
If you are not happy
I will be your smile,
Oh my dear friend
Please always be mine!

"FRIEND"

There is no other like a good friend
To express your happiness & sadness,
Worries & troubles.
Someone to open up with,
Someone to speak up with.
The ups & downs,
The highs & lows,
The everyday stumbling blocks & hurdles.
Someone who knows you
Your every traits & flaws.
Someone who understands you
Your all-time dreams & desires.
And someone who loves & admires you after all.....

SHE - THE WOMAN

She sits on the windowsill, blanketed in a dark night's hue
An unsung angel with broken wings
Time stands still, for a moment or two
While she soothes shattered hearts in lullabies that she sing

As she walks across the alleys and boulevards
Carrying constellations in her hands
The moon borrows some light from her stride
Together they brighten the dark souls of our lands

She helps heal scars with a touch of her warmth
Of every person who happens to cross her path
The wind succumbs to the compassion in her breath
As she sets out to spread smiles and happy thoughts

Some call her a goddess
While some give her vile names
She's called a 'lucky charm' for someone's success
While someone else's failure cause her blame

She might be a friend, sister or a mother
It doesn't matter in their judging eyes
Today it is us, tomorrow some other
Their tongues birth new slander as the old rumours die

Undeterred by remarks, she stands tall
An unsung angel with broken wings
She holds her world in its place, lest it may fall
A little of her charm linger in everything

An unsung angel with broken wings
On her spirit embarks mankind's survival
A piece of heaven along she brings
Her soul's kind enough to embrace even a rival

HOPE

Hope that our lives will fall on track back
And that love might come which never fades
Hope that these darkest times we spend
Will somehow help us brighten and glow up in coming times
Teaches us something to be memorized forever
Hope that we even burst into tears that day
But not of pain but out of happiness
Hope that we never regret the things done
And still try attempting to make a fresh start
Hope that tomorrow will come
And it might offer brand new chance
We hope each day coz in reality
Nothing is guaranteed
Sometimes hoping for best
Is the best we can hope to do

REELS vs REALITY

Pichai Sundararajan, Bhawana Kanth, Neena Gupta, Dr. A. P. J. Abdul Kalam, S. Nambi Narayan, one can go on and on about India's rarest diamonds. What might have motivated them to become such great personalities? Interest, facilities, and knowledge can't be the sole reason for their stellar work.

A country like India is full of evidence that one does not need a degree to be innovative or creative. Even a father having nil knowledge in the field of robotics can push his boundaries and motivate his son to build a robot that assists him in doing daily tasks. Whereas, most of the youth of this generation is losing its miraculous mind and skills by wasting their time and energy on a time killer platform.

Entertainment was a part of everyone's daily life for a very long time, still people were creative and excited about the latest inventions. But now social media has reduced the student's interest in the field of education and innovation drastically. Students have started believing that they can earn a lot of money from social media and studies are of no use and this is bad!

It makes teens really sucked in their phone (distraction), toxic community/bullying, engagement in risky behavior etc. Personally, it makes people feel insecure, especially with the competitiveness of fame going on in the media.

For some, it might just be a little time pass, for others it might be their path to fame.

And we all know that overuse of something ends up destroying something. Just like that, someone who overuses this media might get affected by its impact. Like not paying attention to much necessary situations or failing back in classes.

There is a great impact of these time killing apps on youth: They don't learn any new skills which could have helped them in future life. They are getting addicted to such apps. They don't feel that it is a good start of the day in the morning, until they open the app. They feel depressed if they don't get enough views.

Some however come out of depression. If they are in depression and they use social media platforms and if they by chance get famous, they think their life is improving and hence don't feel depressed and come out of it. That's one good thing! Many people get motivated and make more and more videos if they are getting views and some fame and some even go ahead and plan their career in these apps.

People can relate to stars of these social media, who are creating videos because these are easy to make. You just require a mobile and you just have to lip sync or do some simple steps. It has given a platform for a lot of talented people to grow who deserve it but 95% of these short clip makers have below average creativity Hence, these youth when they don't get success in the field they pursue end up destroying both sides of success with nothing in hand.

We have to understand that the audience on these apps, which are basically kids between 10-17, don't know what they are consuming. I think that is the only reason a person eating chicken leg piece, is followed by 5 million people.

Although the government knows very well, the consequences of being highly devoted towards social media. But still they are not taking any action. The only thing behind the huge craze for this media is that means of recreation can easily attract youth more than any kind of hard work like education. So people who have good looks are thinking that now even they can achieve.

Hence government should take serious actions on matters of concern like- -promoting violence on social media apps. -maligning the modesty of women. -for promoting violence against animals.-for uploading any video which may not be appropriate for teenagers. Hence, thousands of videos will be removed.

Parents should be advised by the government to monitor their kids and ensure discipline in shooting, uploading and watching videos. Along with this, the quality of our education system should be healthy, friendly, motivated and step ahead to make education more interesting for today's generation. If these apps are a platform of youth talent then why can't they post some talented videos but today many of us don't like to post creative videos.

BEWARE! phones may get hacked too, as the app can upload all the personal details to their server. One's images/videos/audios/files, contacts information, mobile numbers, internet data usage, etc. can be

accessed by that app, as it will already ask for the permission and privacy will be no more. Media reports have documented cases of users being bombarded with disturbing comments, while others have been asked for private contact details or to post provocative images.

People should understand the difference between reel life and real life. People are cutting their nerves, drinking shit, and doing all sorts of things to gain stardom. Is stardom more important than your life. They are living in a fantasy world where they are the masters but this is real life they must understand and some day they will hit hard after this minute success.

At last the youth, Should have our own opinion, Should have understanding. No matter how one learns it either from observation or from comparison. Be practical and have eagerness to know the reason. We are ready to take risks for it. Be enthusiastic to Innovate and Inventive. Become those who can make a living out of the things one does! Be bold enough to flaunt our thoughts freely. Evaluate pros and cons of everything and act accordingly.

Know that uploading a status/story in social media can have a great impact on the whole of the viewers watching it!

When the whole world is pulling you down ...

Just have a look in to the mirror...

There will be the one who supports you and encourages you & the one who deserves the best one....

It's you... Embrace yourself...

So don't step down because you can do it...& also you deserve it too...

In this busy world...

No one cares about how good you are...

But everyone do remember the mistake ...

Which has made mistakenly...

One of the craziest thing is...

Being a human is a temporary thing on earth...

But we do expect permanent things in life...

As the time flews everything and everyone get changed...

The only thing that remains constant is just memories...

Sometimes situations in life are like thorns under the feet...

Neither we can't move forward nor be stayed on it for longer...

Every time don't blame the situation in what you are...

Instead regret yourself that you didn't handle it in a right way...

And think how to fix it...

If you get a chance to choose either happiness or sadness what would you choose???

I choose neither happiness nor sadness...

Neutrality was the best choice I guess...

Even shadow might be vanished at dark...

But memories lasts forever...

No matter how life goes on...

Everything is predetermined...

PAST PRESENT FUTURE...

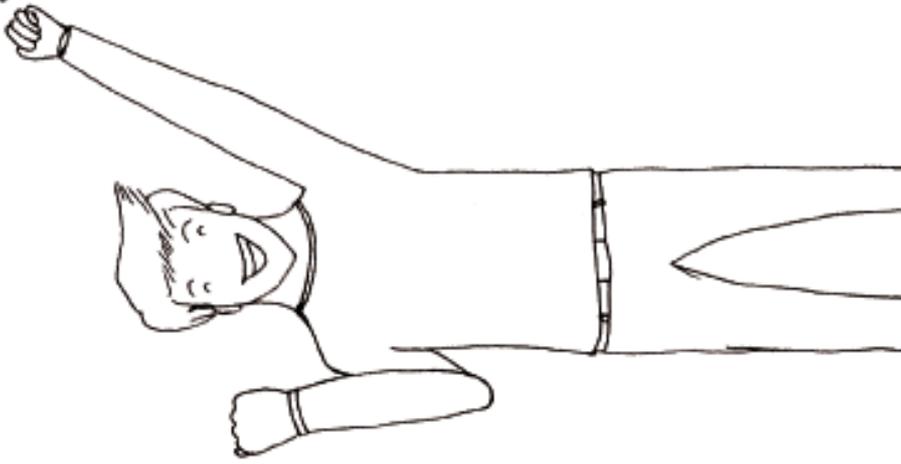

Everyone is beautiful in their own way ...

Simple don't judge anyone by their appearance...
